

MIXA® – The Solution for your Kitchen

mixa.

**You can trust Corian®** ... the original solid surface material, made from a blend of natural minerals and high-performance acrylics. Stainless steel has been proven to be an extremely durable material, ideal for kitchen sinks and commercial applications. MIXA® sinks maximize the beauty of Corian® whilst combining the practical qualities of stainless steel.

With MIXA® it is possible to have your worktop flow into a stylish sink of the same colour. Easy to use and maintain. MIXA® sinks are backed by a 10 year limited installed warranty when installed by a DuPont Quality Network fabricator or service center.

Optional: A flush-mounted stainless steel bowl – multi purpose and practical, e. g. for vegetables or leftovers.

Optional: Stainless steel bars embedded in Corian® work like a trivet, without the clutter.

## MIXA® – it's your kitchen.

What is the personality of MIXA®?

It's colourful, fun, imaginative, versatile, stylish, capable of virtually anything and quite simply a pleasure to live with. MIXA® sinks are available in a wide range of shapes and sizes and can be fully integrated into a Corian® worktop.

Optional: MIXA® Flex provides a consistent visual appearance and serves as a functional cutting board. With a drainage area carved into your Corian® worktop water can easily drain off.

Optional: Integrated tab arm for easy cleaning. MIXA® PLUS – the stainless steel base of the sink is available with an exclusive coating in gold or anthracite. Please note our instructions for use and care of MIXA® PLUS.

## Key characteristics

MIXA® is the combination of Corian® and stainless steel. Corian® is a non-porous material. It is solid and can be fabricated with inconspicuous seams, rendering its surface hygienic. Corian® surfaces do not support the growth of bacteria nor fungi.

Corian® is available in more than 100 colours. For every Corian® worktop there is a variety of matching MIXA® sinks. We can optionally offer the stainless steel bottom with an exclusive MIXA® PLUS coating (PVD technology). The ultrahard PVD coatings consist of very thin ceramic coatings.

Self-expression with MIXA® starts at home. A seamlessly integrated MIXA® sink is the perfect way to maximize the beauty and functionality of your Corian® worktop.

## Dare to be different.

Choose from a vast range of colours and shapes. The result is a hygienic, uniform and outstanding quality look. It is easy to create a stylish kitchen with MIXA® sinks.

Durable surfaces, robust and easy to clean.

Optional: A covered backsplash is a highlight for your Corian® worktop.

## Trustworthy

MIXA® stands up well to daily wear and tear. Our selected materials are non-porous, so liquids, mould, mildew, germs and odours cannot penetrate. The seamless nature of our materials is an indispensable quality characteristic – there is no space for dirt and bacteria.

MIXA® stands by you, whatever life may dish out. It's easy to clean, stain-resistant, highly durable. So you have fewer worries and more time to enjoy life.
